UX/Product Designer with 4+ years of experience designing enterprise platforms and digital products across government, financial services, education and startup environments. Experienced in user research, interaction design, prototyping and design systems, collaborating with cross-functional teams to simplify complex workflows into intuitive, user-centred experiences. Passionate about designing accessible, scalable products that balance user needs with business objectives.

PROFESSIONAL WORK EXPERIENCE

CellNova | Multidisciplinary Designer (UX, UI & Visual) (Co-Founder) | 2024 - present

- Lead end-to-end UX and UI design for web and mobile products, from discovery and user research through to high-fidelity design and developer handover.
- Design intuitive user journeys, interactive prototypes and scalable interface systems that balance business goals with user needs.
- Partner with clients and developers to deliver user-centred digital experiences and translate complex requirements into practical design solutions.

Monash University | User Experience Consultant (Intern) Jul - Oct 2025

- Led UX research for a university platform serving 1,000+ users, identifying opportunities to improve navigation and task completion.
- Produced wireframes and interactive prototypes to validate design solutions before implementation.
- Presented research findings and recommendations that informed product decisions across academic and technical stakeholders.

PwC (PricewaterhouseCoopers) | User Experience Consultant Jun 2022 - May 2024

- Designed enterprise digital products across government and financial services, translating complex business processes into intuitive, user-centred experiences.
- Contributed to the **Government Treasury Platform**, redesigning financial workflows, approval journeys and information architecture for enterprise users.
- Designed user experiences for the **MSME Banking Platform**, supporting account management, statement generation and core banking journeys across web and mobile.
- Conducted user research, workflow analysis and stakeholder workshops to align business objectives with user needs and inform design decisions.

- Collaborated with product managers, business analysts and engineers to deliver scalable solutions, contributing to enterprise design systems and successful implementation across multiple projects.
- Contributed to enterprise design systems and supported implementation through design validation and developer handover.
